REFERENCES TO THE LITERATURE OF THE SUGAR BEET, EXCLUSIVE OF WORKS
IN FOREIGN LANGUAGES.

Compiled by
CLARIBEL R. BARNETT.

The references marked * could not be verified.

BIBLIOGRAPHIES.

Briem, Hermann. Der praktische rübenbau. Wien, 1895. pp. 39-48, 527-534.

The German literature on the sugar beet from the year 1799 to 1895.

Roth, Henry Ling. Guide to the literature of sugar. 159 pp. 8°. Lond., 1890.

Contains numerous references to books and articles on beet sugar, the greater number of which are in French or German.

GENERAL WORKS.

Alameda sugar company. Sugar beet culture. 7 pp. 24°. [San Fran.], 1896.

Aligny, Henry F. Q. d'. Manufacture of beet sugar and alcohol, and the cultivation of the sugar beet. 90 pp. (In U. S.—*Commissioner for Paris Exposition*, 1867. Reports, v. 5.)

Anaheim cooperative beet sugar company. Petition against repeal of sugar-bounty law, Aug. 21, 1893. 3 pp. (U. S.—*54th Cong., 1st sess.—Senate. Misc. Doc.*, v. 1, no. 24.)

Barnard, Edward A., and Cuisset, Octave. Beet sugar. 29 pp. 8°. [Quebec, 1877.]

Contents:—Beet sugar; its economical production in the Province of Quebec, by E. A. BARNARD.—General report on the value of the sugar beet harvested in 1876 in the Province of Quebec, by OCTAVE CUISSET.

* **Barouchson, Arnold.** Beet root sugar; remarks upon the advantages derived from its growth and manufacture in the United Kingdom; together with a description of its rise, progress, and present position on the continent of Europe, and some practical directions to agriculturists and manufacturers, with an appendix on the International convention. 109 pp. 8°. Lond. & Liverpool, 1870.

Beet sugar; the coming industry of the United States; shall Michigan take the lead while in its infancy or wait until other States by encouragement have developed and firmly established this industry within their boundaries? 40 pp. 8°. n. p., [1897].

* **Cameron, Charles Alexander.** On the cultivation of the Silesian beet in relation to the production of sugar; a paper read before the Royal agricultural society of Ireland on the 11th of Nov., 1873. Dublin, [1873?].

Child, David Lee. Culture of the beet, and manufacture of beet sugar. 156 pp. il. 12°. Boston, 1840.

The first successful attempt to produce beet sugar within the United States is credited to David Lee Child, of Northampton, Mass., who made about 1,300 pounds of sugar in 1838.

[**Church, Edward**], *compiler.* Notice on the beet sugar; containing, first, a description of the culture and preservation of the plant; second, an explanation of the process of extracting its sugar; preceded by a few remarks on the origin and present state of the indigenous sugar manufactories of France; translated from the works of Dubrunfaut, De Domballe, and others. Ed. 2. 12°. 55 pp. Northampton, Mass., 1837.

Crookes, William. On the manufacture of beet-root sugar in England and Ireland. 290 pp. il. 12°. Lond., 1870.

This work is founded on a series of articles by M. Julien M. Deby, published in the *Scientific American* for 1869; these articles were, however, extended and much new matter added.

Cuisset, Octave. Popular treatise on the beet root culture and sugar fabrication in Canada. 112 pp. 12°. Quebec, 1876.

Cull, Edward Lefroy. Whole history and mystery of beet root and beet-root sugar . . . 16 pp. 8°. Toronto, 1872.

De Man, E. F. "Beet root sugar" question. 84 pp. 8°. Lond., 1870.

Deals principally with the culture of the sugar beet.

***Eddy, Charles G.** Sugar beet culture and the manufacture of beet sugar. Ed. 2. 16 pp.

Few facts about sugar beets for farmers and others. 40 pp. 8°. Fremont, Neb., 1897.

Fleischmann, Charles Lewis. Memorial relative to manufacture of beet sugar . . . Dec. 27, 1838. 14 pp. (U. S.—*25th Cong., 3d sess.—Senate. Docs., v. 3, no. 147.*)

"History of the manufacture of beet-root sugar in Europe; reasons for encouraging this branch of industry in the United States." B. P. Poore.

Granger, C. A. Growing of sugar beets, irrigation, etc. 15 pp. 12°. Lehi, Utah, n. d.

Grant, E. B. Beet-root sugar and cultivation of the beet. 158 pp. 16°. Boston, 1867.

Hough, John Stockton. Summary of facts concerning the cultivation of the sugar beet and the manufacture of beet sugar; necessity of protective tariff and bounty. 16 pp. 8°. Trenton, 1897.

An address delivered before the *Board of trade of Trenton, N. J.*, Feb. 25th, 1897.

***Koebig, J.** Importance of the beet-sugar industry for California. [1895?]

Krichauff, F. E. H. W. Beet-sugar industry, a paper read before a meeting of the Chamber of manufactures in the eastern annexe of the Exhibition building, on Friday, the 21st day of August, 1896. 8 pp. 8°. Adelaide, Aus., 1896.

***Lander, Robert H.** Beet-sugar industry, its adaptability to Canada. 34 pp.

***Lander, Robert H.** Report on the cultivation of the sugar-beet in Ontario. [1891.]

***Ledoux, A. R.** Sugar-beet in North Carolina. 50 pp. Raleigh, 1878.

"We have in this pamphlet an account of certain experiments in the cultivation of sugar beets in North Carolina, together with a statement of the present condition of the sugar-beet industry in the United States. Further there is a synopsis of the results obtained in beet culture in Europe." *Popular Science Monthly*, v. 13, p. 375.

Lock, Charles G. Warnford, Newlands, B. E. R., and Newlands, J. A. R. Sugar: A handbook for planters and refiners. 8°. Lond., 1888. pp. 420-511.

Manual of the art of making and refining sugar from beets, translated from portions of the treatise of MM. Blanchette and Zoega. Boston, 1836.

Myrick, Herbert. Sugar, a new and profitable industry in the United States for capital, agriculture, and labor, to supply the home market yearly with \$100,000,000 of its product . . . 148 pp. il. 8°. N. Y. & Chicago, 1897.

Observations on beet-root sugar and sugar-beet culture, as adapted to the United States, with a view of the principal systems of beet-sugar manufacture now in use, and practical directions for proceeding in the business; compiled and arranged from authentic and statistical sources. 40 pp. 8°. Chicago, 1863.

***Ogilvie, —.** Beet root and beet root sugar. 8°. Cork, 1877.

Pedder, James. Report made to the Beet sugar society of Philadelphia on the culture, in France, of the beet root and manufacture of sugar therefrom. 40 pp. 8°. Phila., 1836.

Pusey, Lea. Beet-sugar industry. 24 pp. 8°. n. p., [1877?].

Contents.—Report of experiments in growing sugar-beets for sugar, in Delaware, and in Salem County, N. J., in 1876.—The beet-sugar industry on the continent of Europe.—Statistics, etc., showing the importance and advantage of its early introduction into the United States.

R., J. Observations on the sugar beet and its cultivation. 15 pp. 8°. Phila., 1840.

Reed, William. History of sugar and sugar yielding plants. 12°. Lond., 1866. pp. 116-122.

***Report of an inquiry into the composition and cultivation of the sugar beet in Ireland** presented to both Houses of Parliament, 1852. 8°. Dublin, 1852.

Sacramento bank, compiler. Interview of Mr. Claus Spreckels by the *San Francisco morning call*, and an article written by E. W. Hilgard for the *Overland monthly*, and a series of letters from C. C. Howells to the *Sacramento daily evening bee*, and communications from C. H. Phillips, W. H. Holabird, Alameda sugar company, and P. A. Buell, relative to the beet sugar industry. 87 pp. 8°. Sacramento, 1895.

San Francisco, Chamber of commerce. Reports of committee on "Beet-sugar culture in California" submitted to a special meeting. . . Thursday, Feb. 2d, 1888. 14 pp. 8°. San Fran., 1888.

Saunders, William. Report on the production and manufacture of beet sugar. 47 pp. 8°. Ottawa, 1892.

***Sullivan, William K.** Facts and theories; or, The real prospects of the beet-sugar manufacture in Ireland. Dublin & Lond., [18—].

***Sullivan, William K.** Manufacture of beet-sugar in Ireland. Ed. 2. 8°. Dublin, 1851.

Taylor, A. J. Wallis. Sugar machinery, a descriptive treatise devoted to the machinery and apparatus used in the manufacture of cane and beet sugars. 322 pp. 8°. Lond., 1895.

***Wadsworth, W.** Indigenous sugars, and directions for making sugar from melons. San Fran., [18—].

Wadsworth, W. Report on beet-sugar production in Europe. 32 pp. 24°. Sacramento, 1869.
A report to the Sacramento Valley beet sugar company.

***Ware, Lewis S.** Production, requirements, and selection of sugar beet seed. Phila., [18—].

Ware, Lewis S. Study of the various sources of sugar: sugar cane, sorghums, sugar beet, maple, watermelons, etc. 8°. Phila., 1881. pp. 39-42.

Ware, Lewis S. Sugar beet, including a history of the beet sugar industry in Europe; varieties of the sugar

beet, examination of soils and tillage, seeds and sowing, yield and cost of cultivation, harvesting, transportation, conservation, feeding qualities of the beet and of the pulp. 323 pp. il. 8°. Phila. & Lond., 1880.

"The author spent fourteen years in Europe studying the subject, the aim of his work being to induce American farmers to cultivate sugar beet for the extraction of sugar. The work amounts, in fact, to a handbook on the subject, and is the best of its kind in the English language." It is most thorough from beginning to end, giving the fullest details in every particular." H. L. Roth.

Wiley, Harvey Washington. Our sugar supply. 8° Wash., 1887. pp. 21-24.

Reprint from *Bulletin no. 2, Chemical society of Washington*.

PERIODICALS.

Sugar beet (bimonthly). Phila., 1880-97.

The following sugar periodicals contain numerous references to the sugar beet:—*Hawaiian planter's monthly*, Honolulu.—*Louisiana planter and sugar manufacturer* [weekly], New Orleans.—*Sugar* [monthly], Lond.—*Sugar cane* [monthly], Manchester, Eng.—*Sugar journal and tropical cultivator* [monthly], Mackay, Queensland.—*Sugar planters' journal* [weekly], New Orleans.

REFERENCES TO ARTICLES IN PERIODICALS NOT INCLUDED IN THE ABOVE LIST.
